

Bag Adaptor SPT

TECHNICAL DATASHEET

The Chemfort™ Bag Adaptor SPT firmly connects between a standard IV bag or semi rigid container to any IV administration set (gravity or pump). A safe drug transfer from the syringe into the IV bag or semi rigid container is installed through a closed connection with the Chemfort™ Syringe Adaptor/Syringe Adaptor Lock. A “click” sound indicates a safe connection between two Chemfort™ components. A simple pinch on the SA/SAL wings will disconnect it from the Bag Adaptor SPT. The self-sealing elastomers prevent drug leakage and droplet formation on the outer septa surfaces. The Chemfort™ portfolio has no known incompatibilities with hazardous drug solvents.

Indications for Use:

Chemfort™ is a Closed System Transfer Device (CSTD) that mechanically prohibits the release of drugs, including antineoplastic and hazardous drugs, in vapor, aerosol, or liquid form during preparation, reconstitution, compounding and administration, minimizing exposure of individuals, healthcare personnel and the environment to hazardous drugs. Chemfort™ prevents the introduction of microbial and airborne contaminants into the drug or fluid path for up to 7 days.

TECHNICAL DATASHEET

Order information

Article number / Reference	MG245746
User box quantity	50 pcs
Transport box quantity	50 pcs

Product Characteristics

Product technical data

Tubing length	5.5 cm
Volume of the tubing	725 mm ²
Spike type	Bag Adaptor SP
Distal end of the tubing	Twist-off connector
Clamp type	Pinch clamp
Septum piercings	Up to ten times
Shelf life	3 years
Sterilization	Ethylene Oxide

Tolerates disinfection with alcohol 70% and chlorhexidine in alcohol (5 mg/70% alcohol)

Material Specifications

Component

Material

Vented cap for spike	Polyethylene
TD Bag Adaptor SP	Copolyester
Elastomer	Polyisoprene
Connector Twist off Tube	PVC DEHP-free
Twist off	PVC DEHP-free
Tube 2.8x4.1 mm	PVC DEHP-free
Small Clamp	Acetal

PVC-DEHP free. Non-pyrogenic. Free from latex, lead, cadmium, arsenic and chrome. Meets standards and regulations with regards to the environment.

Regulation

CE 0483

Disposal of components should be according to local regulations and procedures for handling of hazardous drugs

Symbols taken from ISO 15223-1:2016

Consult instructions for use

Sterilized using ethylene oxide

Non-pyrogenic

Do not re-sterilize

Do not re-use

Do not use if package is damaged

Keep dry

Keep away from sunlight

Donawa Lifescience Consulting Srl
Piazza Albania 10,
00153 Rome, Italy

Not made with natural rubber latex or DEHP

CE 0483
